

# The Poodle Problem Pooch Parlour

The standard poodle parent should have hip scores of 10 or less, clear eye test, and have had evaluations for autoimmune thyroiditis, sebaceous adenitis and an ofa cardiac evaluation. port manteaux churns out silly new words when you feed it an idea or two. enter a word (or two) above and you'll get back a bunch of portmanteaux created by jamming together words that are conceptually related to your inputs.. for example, enter "giraffe" and you'll get back words like "gazellephant" and "gorilldebeest".
